

Value. Versatility. Velociti.

Specializing in the global deployment of transportation technology

A successful technology deployment is critical to your ROI. With a proven foundation in both wireless networking and transportation technology, we offer expertise that can be leveraged in any business environment. With Velociti, you get the right solution at the right time, no matter where you are or what you do!

Turnkey Solutions for the Deployment of Transportation Technology related to Tracking, Communications, Safety, Security and More.

A partnership with Velociti begins well before deployment of your technology solution. We're with you every step, ensuring that no critical details are overlooked. Velociti...your complete professional services provider.

Emerging Technology

As technology evolves, so do we. Our technicians receive continuing education on all emerging technologies. This ensures we understand not only the technology itself, but how it can benefit you.

Dedicated Staff

Our full-time, expertly-trained Project Managers and Mobile Technicians are dedicated to providing stellar service. With Velociti, you can be sure that you will always receive quality, comprehensive support from our knowledgeable and professional staff.

Geographic Reach

You need a service provider that can go anywhere, anytime. Our employees are geographically dispersed to provide timely and accessible support throughout the World.

Web Based Project Management

Knowledge is power. Our DataMining portal provides you with secure access to all project information. You define the parameters, we provide the data.

You need it. We do it.

Transportation Technology Solutions

Transportation is a high-tech business. Onboard solutions have fostered the evolution of countless products that allow fleets to operate more efficiently, improve customer service and increase profits. Since 1975, Velociti has been a market leader in Transportation and Logistics. We have accumulated knowledge and expertise in a variety of technology solutions. From trucks to trains, we can

help you get the best ROI from your technology solution, maximizing your fleet productivity and giving you a competitive edge.
